

Please do not give priority to LPFM stations over FM translators, such as KLOVE. The KLOVE station has been a very important addition to our community, adding excellent quality, family oriented programming. If KLOVE were replaced with a local station that doesn't have the resources available to it that the national station has, the quality of our programming of Christian music would surely suffer. Before KLOVE was added to our city, our selection of Christian music was not anywhere near the quality we have currently with our KLOVE station. It is in the Jonesboro, and many other communities best interest to allow these stations to continue to broadcast as a priority station.

Thank you for your attention.
